

Product description:

ISO Roof Primer is used on asbestos cement and cement concrete tiles, before you apply the ISO High Gloss Roof Painting. ISO Roof Primer is available in the same colours as ISO High Gloss Roof Painting.

Directions of use:

Before application the roof must be cleaned very carefully. All dirt, alga, and moss must be taken away with ISO roof cleaner. When the roof is clean and dry you apply ISO roof Primer. The best result will be achieved by spraying.

After app. 1-2 hours, depending on temperature and RH, ISO high Gloss roof painting can be applied.
